

# Thiago Costa Martins

## Java Developer

I worked as a Graphic Designer about 12 years ago and 2 years ago I changed my career and since then I have worked as a Developer. I started taking several programming courses, and then I have developed server-side applications, Rest APIs, web applications to apply and improve my knowledge in Java. Implementing OAuth2 security, sending images to S3 Amazon, making reports using Jasper, using containers to run up applications. I participated in node.js, react and react native workshops sponsored by RocketSeat and built a web, mobile and backend project during that time. In 2019, I went to Vancouver, Canada, and took English classes for 2 months to improve my English skills.

## WORK EXPERIENCE

### Java Developer

#### MJV Technology & Innovation BRASIL

12/2020 - Present

Rio de Janeiro - RJ

MJV is a global innovation and technology consultancy located in 7 countries. They provide end-to-end solutions, from ideation to IT implementation, through Data Science and Analytics.

##### Achievements/Tasks

- I had the opportunity to participate in a project to reformulate a system that consisted of searching for professionals or partner companies to carry out consultations, medical consultations or clinical and laboratory exams and there I could test my knowledge in programming.
- Together with the team, I implemented the integration between the REST services using Java 8 and Maven to organize all dependencies. I mapped some cobol books (DB2 database). Optimizing Rest Services and correcting status code for each service, in addition to implementing exception handling in a simple way.
- I also got the chance to convert some system modules from html to xhtml, using JSF components. Javascript and JQuery were used to validate some fields in the forms and to change some behaviors in the application pages.
- We used SVN for version control and a kind of Jenkins for the continuous deployment of the application and I was in charge of updating the documentation of all Rest APIs that we use in the application.

### Developer

#### Confluence Computer Solutions

07/2019 - 11/2020

São Paulo - SP

Confluence is a consultancy that has experience in integrating complex hospital systems into your ERP, BI and financial systems using the Intersystems Ensemble platform.

##### Achievements/Tasks

- I worked as a programmer in a software factory where I developed integration services in soap standards, using Intersystems's ObjectScript language and Cache relational database.
- I obtained positive feedback and was invited to work directly with the Albert Einstein Hospital innovation team and there I had the opportunity to participate in the project Drivethru Covid19 app.
- I developed Rest APIs, integrated with legacy systems, optimized existing APIs to adapt to the covid19 application flow.

## EDUCATION

### Information Security Technology

#### University Nove de Julho (Uninove)

01/2015 - 07/2017

São Paulo - Brazil

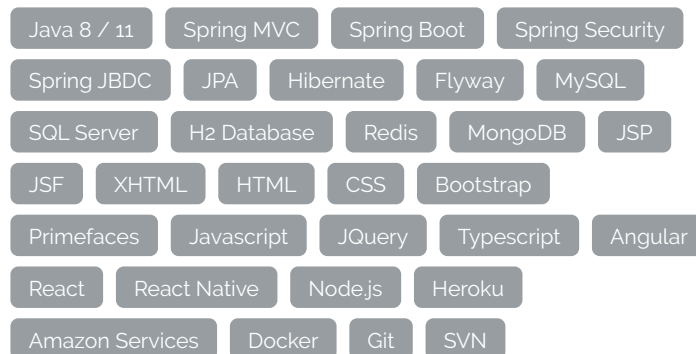

### Industrial Draw

#### University São Judas Tadeu (USJT)

01/2007 - 12/2010

São Paulo - Brazil

## SKILLS

## EXTRA COURSES

Spring Rest Specialist - Algaworks - 260h (2021)

Java and JSF 2 - III: Integration with CDI - Alura - 16h (2021)

Java and JSF 2 - II: Rich components with Primefaces - Alura - 12h (2020)

Java and JSF I: Your web application with JSF2 - Alura - 20h (2020)

Java Servlet: Fundamentals of Java web programming - Alura - 10h (2020)

Java Servlet: Authentication, authorization and the MVC standard - Alura - 14h (2020)

Java and java.util: Collections, Wrappers and Lambda expressions - Alura - 12h (2020)

Java and java.io: Streams, Reader and Writers - Alura - 12h (2020)

Java and JSTL: Tags to facilitate JSP development - Alura - 6h (2020)

Bootstrap: creating a responsive single-page - Alura - 12h (2020)

FullStack Angular Spring - Algaworks - 120h (2020)

Spring Framework Expert - Algaworks - 120h (2020)

Fundamentals Scrum - LinkedIn (2019)

Responsive Web Design with HTML5, CSS3 and BEM - Algaworks - 36h (2019)

Java Programmer - Impacta - 100h (2018)

SQL Server Module 1 - Impacta - 40h (2018)
